

A NEW PARTNERSHIP FOR FIDUCIARY ADVISORS

The retirement platform your clients are *missing*.

More income. More purpose. More clarity.

EDDIE APPELL

Founder & CEO, RetireMore

The conversation you keep having.

Your clients trust you to handle the money. But they keep asking you questions that aren't really about the money.

“

Where should we actually retire?

Tax planning + lifestyle fit + healthcare access

“

Should we move abroad?

Visas, healthcare, cost of living, currency risk

“

What am I going to do all day?

Identity, purpose, social structure

“

How do I leave a legacy beyond money?

Volunteering, mentorship, family values

“

What happens to my digital life?

Passwords, accounts, photos, crypto

“

How do I give while I'm still alive?

Lifetime gifting + estate optimization

*Your planning software answers the first half of one question. **RetireMore answers all of them.***

You're solving one third of the picture.

So is everyone else.

73%

of pre-retirees say their biggest fears about retirement are NOT financial.

INTRODUCING

The engagement layer for fiduciary advisors.

WHAT IT'S NOT

A planning software replacement.

Keep eMoney, RightCapital, MoneyGuidePro. RetireMore complements the planning you already do — it doesn't compete with it.

WHAT IT IS

An always-on engagement layer.

12 retirement tools — financial, lifestyle, legacy — that your clients use between meetings to build a complete retirement plan, not just a financial one.

WHY IT MATTERS

The questions you can't bill for.

Your clients want answers about identity, purpose, location, legacy, and digital life. RetireMore lets you answer them — and get credit for it.

Twelve tools. Three dimensions of retirement.

Every client gets full access to every tool. You decide which ones to enable per client.
